

**BELTSVILLE, MD –** Congressman Steny H. Hoyer (MD-5) today visited Maryland manufacturers as

“When the recession hit, many Americans worried that much of the manufacturing industry and the jobs

“In fulfilling the Make it in America agenda, it is critical that we also support technological innovations that

*Congressman Hoyer meets with the owner of Capital Plastics Company, a family owned business since*

*Congressman Hoyer meets with the employees of a factory that produces the spherical components for the F-35 fighter jet.*

*Congressman Hoyer tours the facilities and talks with employees at Stromberg Sheet Metal Works, a factory that produces sheet metal components for the F-35 fighter jet.*

## Congressman Hoyer Visits Maryland Manufacturers as Part of “Make it in America” Tour

Wednesday, 04 August 2010 23:00

---

House Majority Leader Hoyer (D-MD) is on his "Make it in America" tour, visiting manufacturers across the country to promote American-made products and jobs. He is currently in Maryland, where he will meet with local business leaders and workers. Hoyer is also scheduled to visit the White House on August 11th to discuss the tour's findings with the President.
